

**Proceedings
of the
Fifth Australian Workshop
on
Acid Drainage**

Editors: L.C. Bell and R.W. McLean

29 – 31 August 2005

Fremantle, Western Australia

Published by:

**Australian Centre for Minerals Extension and Research
PO Box 883
KENMORE QLD 4069**

Published by the Australian Centre for Minerals Extension and Research (ACMER)
ABN 62 083 004 399

ISBN: 0 9750304 5 0 (CD-ROM)

July 2006

Disclaimer

Material presented in this document is the responsibility of the authors. The opinions expressed do not necessarily represent the views of ACMER.

ACMER accepts no liability (including liability in negligence) and takes no responsibility for any loss or damage which a user or any third party may suffer or incur as a result of reliance on the document.

Acknowledgements

The program for this workshop was developed by a Planning Committee consisting of Dr John Bennett (ANSTO), Mr Bill Biggs (Valback), Mr Nick Currey (Placer Dome Australia), Prof Louis Evans (Curtin University of Technology), Mr Tom Farrell (HLA Envirosciences), Dr Christoph Hinz (University of Western Australia), Dr Bruce Kelley (Rio Tinto), Dr Stuart Miller (EGI), Dr Carolyn Oldham (University of Western Australia), Dr Steve Slater (Rio Tinto), Dr Jeff Taylor (Earth Systems), Mr Peter Waters (BHP Billiton), Mr Ron McLean (ACMER) and Prof Clive Bell (ACMER). The administrative support of Ms Megan Whitta and Mrs Carol Stirk of ACMER, in preparing the Proceedings, is gratefully acknowledged.

TABLE OF CONTENTS

	Page
The Business Case for Prevention of Acid Drainage	<i>P.J. Dowd</i> 1
Prediction and Planning	
Developments in Acid Rock Drainage Prediction: Short – and Long-Term Neutralisation Kinetics	<i>R.St.C. Smart, P.A. Weber, J.E. Thomas, J. Li, A.R. Gerson, R. Schumann, G. Levay, W. Stewart, and S. Miller</i> 11
Leading Practice in the Design of Waste Rock Dumps for Acid Drainage Management: A Case Study	<i>A.M. Robertson</i> 29
Deciphering Macro-Structural Complexity In Waste Rock Stockpiles at Ranger Uranium Mine	<i>G. Shirliff, R. A. Eggleton, P. de Caritat, D. Kirste, and D. Jones</i> 43
Acid Sulfate Soils Issues	
Developing Management Measures for Acid Sulfate Soils in Western Australia: Recognising the Need to Tread Lightly on Sensitive Coastal Land	<i>S. Appleyard</i> 53
Acid Sulfate Soils (ASS) and Acid Mine Drainage (AMD): Framboids and the Common Links	<i>S.K. Dobos</i> 71
The Need for National Standardisation: Experience with Acid Sulfate Soil Management and Laboratory Methods Guidelines	<i>C.R. Ahern and A.E. McElnea</i> 85
Acid Sulfate Soils and the Government: Driving Decisions and Management – the Queensland Experience	<i>C.R. Ahern and K.M. Watling</i> 97
Regulatory Issues	
Regulatory Issues Relating to Acid Mine Drainage	<i>X.T. Nguyen</i> 109
Management of Acid Drainage	
Cover System Design and Performance Monitoring – A Case Study of Mount Morgan	<i>M. O’Kane</i> 115
Long-Term Performance of a “Store/Release” Cover over Potentially Acid-Forming Waste Rock in a Semi-Arid Climate	<i>D.J. Williams, D.J. Stolberg, and N.A. Currey</i> 129

TABLE OF CONTENTS (cont'd)

Page

Management of Acid Drainage (cont'd)

A Three-Year Comparison of Measured Water Fluxes into Covered and Uncovered Waste Dumps at the Kestrel Mine	<i>A.M. Garvie</i> 141
---	------------------------------

Treatment of Acid Drainage

A Summary of Passive and Active Treatment Technologies for Acid and Metalliferous Drainage (AMD)	<i>J. Taylor, S. Pape, and N. Murphy</i> 151
Overview of Limestone Water Treatment Systems	<i>R. Green</i> 193

Closure and Relinquishment

Standard Protocols for the Long-Term Prediction and Monitoring of Mine Lake Water Quality	<i>C. Oldham, P. Franzmann, G. Douglas, K. Eigeland, A. Ghadouani, G. Ivey, U. Salmon, D. Reynolds, S. Samaraweera, and J. Stauber</i> 205
Closure for Beneficial Outcomes	<i>L. Evans, D. Hunt, and P. Ashton</i> 215
Treatment and Management of Pyritic Material During the Closure and Rehabilitation of the Beenup Titanium Minerals Project	<i>W.L. Lyon, W.A. Cusack, and R.M. Norrish</i> 221
Mine Closure Options for Mount Morgan - A Hypothetical Analysis	<i>M. O'Kane, C. Wels, and S. Dobos</i> 239

Poster Paper

Prediction of Sludge Composition and Water Quality from Lime Neutralisation of Acid Rock Drainage (ARD)	<i>D.M. McDonald and J.A. Webb</i> 245
---	--

Please note that some papers presented at the Workshop are not included for publication in these Proceedings as the authors chose not to provide a paper.
