

Proceedings
of the
Sixth Australian Workshop
on
Acid and Metalliferous Drainage

**Editors: L.C. Bell, B.M.D. Barrie, B. Braddock and
R.W. McLean**

15-18 April 2008

Burnie, Tasmania

Published by:

ACMER 

A unit of the Sustainable Minerals Institute

**The University of Queensland
St Lucia Qld 4072
Australia**

Published by ACMER, a Unit of the Sustainable Minerals Institute, The University of Queensland

Acknowledgements

The program for this workshop was developed by an Organising Committee consisting of Emer Prof Clive Bell (formerly with ACMER), Dr Paul Brown (Rio Tinto), Mr Nick Currey (Lihir Services Australia Ltd), Mr Rob Dineen (formerly with the Tasmanian Department of Tourism, Arts and the Environment), Dr Steve Dobos (Dobos and Associates), Ms Alison Hughes (Tasmanian Department of Tourism, Arts and the Environment), Mr Bert Huys (BHP Billiton Iron Ore), Dr David Jones (Australian Government Department of Environment, Water, Heritage and the Arts), Mr Peter Scott (HLA-ENSR), Dr Jeff Taylor (Earth Systems), Mr Ian Tredinnick (Xstrata Copper), Prof David Williams (The University of Queensland) and Mr Ron McLean (ACMER). Valuable administrative and editorial input has been provided by Mr Bruce Barrie and Mrs Brigitte Braddock (ACMER).

List of Reviewers

We would like to thank the following technical referees for their contribution towards enhancing the quality of papers included in these proceedings.

Emer Prof Clive Bell (Formerly Executive Director ACMER)

Dr Paul Brown (Rio Tinto)

Prof Alan Bye (Bryan Research Centre, The University of Queensland)

Mr Nick Currey (Lihir Services Australia Ltd)

Dr Steve Dobos (Dobos and Associates Pty Ltd)

Dr Mansour Edraki (Centre for Mined Land Rehabilitation, The University of Queensland)

Mr Bert Huys (BHP Billiton Iron Ore Pty Ltd)

Dr David Jones (Department of Environment, Water, Heritage and the Arts)

Mr Ron McLean (ACMER, The University of Queensland)

Prof David Mulligan (Centre for Mined Land Rehabilitation, The University of Queensland)

Mr Peter Scott (HLA-ENSR)

Prof David Williams (School of Engineering, The University of Queensland)

Prof Ward Wilson (University of British Columbia, Canada)

TABLE OF CONTENTS

Page

BUSINESS CASES

| | | |
|---|---------------------------|----|
| Business Case: Gaining a Social License to Mine – ARD Prevention | <i>T.D. Chatwin</i> | 1 |
| Innovative ARD Management Unleashes the Potential of the Savage River Ore Body | <i>S.B. Kent</i> | 13 |

KEYNOTE PRESENTATIONS

| | | |
|---|---|----|
| The Dynamics of Sulfide Oxidation | <i>P. Brown, A. Garvie and C. Linklater</i> | 27 |
| Managing AMD Risks through the Mine Life Cycle | <i>N. Currey</i> | 41 |

PLANNING AND MANAGING FOR PERPETUITY: DESIGNING SAMPLING AND TESTING PROGRAMMES

| | | |
|--|---|----|
| Designing an Effective Sampling and Testing Program for Acid Mine Drainage/Metal Leaching | <i>P. Scott</i> | 49 |
| Towards Understanding the Chemistry of Limestone Mitigation of Acid and Metalliferous Drainage in Waste Rock Dumps – From Laboratory to Field Experiments | <i>R. Schumann, S. Miller, Y. Rusdinar, R. Smart, N. Kawashima and D. Weissmann</i> | 63 |
| Bridging the Gap between Acid Sulfate Soils and Acid Rock Drainage – An Approach for Mineral Sands | <i>J.A. Palich</i> | 77 |
| Dynamic pH Testing as a Means to Predict Acid Rock Drainage | <i>A. Rossiter, S. Yani, M.N. Song, V. Sage D.K. Zhang, A. Drennan and B. Huys</i> | 87 |

PLANNING AND MANAGING FOR PERPETUITY: WASTE ROCK DUMPS

| | | |
|--|---|-----|
| Why are We Still Battling ARD? | <i>G.W. Wilson</i> | 101 |
| ARD Minimisation and Treatment Strategies – Stockton Opencast Coal Mine, New Zealand | <i>P.A. Weber, P. Lindsay, J.B. Hughes, D.G. Thomas, G.A. Rutter, C.G. Weisener and M. H. Pizey</i> | 113 |
| Groundwater Modeling as a Tool for Closure Planning: Prediction of Zinc Transport for Alternative Cover Scenarios. | <i>C. Wels and L. Findlater</i> | 139 |

| | | |
|--|--|-----|
| Waste Rock Dump Rainfall Infiltration and Base Seepage at Cadia | <i>D.J. Williams and T.K. Rohde</i> | 151 |
| An Experimental Study on the Prediction of Acid Rock Drainage from Mining Wastes | <i>M.N. Song, D.K. Zhang, A. Drennan and B. Huys</i> | 163 |
| Anatomy of a Rock Storage Facility – Quantifying Reactive Waste Rock Distribution in a Constructed Rock Storage Facility | <i>P.A. Scott and G. Lee</i> | 179 |
| Sullivan Mine Fatalities: Preliminary Technical Investigations and Findings | <i>M. Phillip, D. Hockley and B. Dawson</i> | 193 |

**PLANNING AND MANAGING FOR PERPETUITY:
VOIDS AND UNDERGROUND MINES**

| | | |
|---|---|-----|
| Can We Predict the Long-term Water Quality in Acidic Pit Lakes? Implications for Closure | <i>C.E. Oldham, S.U. Salmon and M. Hispey</i> | 209 |
| Bioremediation of Acidic Mine Lakes in Southwest Victoria | <i>T. Tutt, J. Sherwood and B. Knight</i> | 223 |
| Planning for Post-closure Acid and Metalliferous Drainage (AMD): Insights from the Management of Long-abandoned Deep Mines and Waste Rock Piles in the UK | <i>A.P. Jarvis and P.L. Younger</i> | 235 |

**PLANNING AND MANAGING FOR PERPETUITY:
TSFS AND TAILINGS**

| | | |
|---|---|-----|
| Strategies to Ameliorate the Effects of ARD in Tailings | <i>M.J. Gowan, R. Verburg, M. Lee and G. Maddocks</i> | 245 |
| Planning, Operating and Managing Tailings Storage Facilities for Sustainable Closure: Are we there yet? | <i>A.M. Robertson and I. P. Swane</i> | 257 |
| Mushy Closure of Henty Pond B | <i>D. Brett and D. French</i> | 271 |
| Rehabilitation of a Highly Sulfidic Tailings Dam in South-eastern Australia | <i>G. Oxley, S. Pape and J.R. Taylor</i> | 283 |

**INNOVATIONS FOR PREVENTING AND MANAGING
ACID AND METALLIFEROUS DRAINAGE**

| | | |
|---|---|-----|
| From Concept to Best Practice – Innovations in AMD Prevention and Management | <i>D.R. Jones and J. Taylor</i> | 299 |
| Release of Heavy Metals from AMD Treatment Sludges – Implications for Managing Sludge in Perpetuity | <i>D. McDonald and J. Webb</i> | 321 |
| Preventing Treatment in Perpetuity through Mitigation Measures | <i>A.L. Hudson, L. Breckenridge and V. Lane</i> | 339 |

INDUSTRY NEEDS FOR FUTURE RESEARCH AND TECHNOLOGY TRANSFER

| | | |
|---|--|-----|
| Managing ARD Potential through Mine Planning and Mineral Processing Practice | <i>T. Napier-Munn, A. Parbhakar, M. Edraki and D. Bradshaw</i> | 351 |
|---|--|-----|

STUDENT POSTER PAPER

| | | |
|---|---|-----|
| Estimation of Acid Neutralisation Rate of Silicate Minerals using Kinetic Dissolution Cell Method | <i>J. M. Ciccarelli, J. Li, R. Smart, R. Schumann and S. Miller</i> | 377 |
|---|---|-----|
